

Now, for the first time, TRIOLA® Radius* allows you to add a new dimension to prismatic 3-message graphic display presentations.

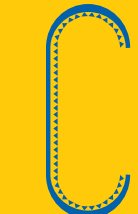

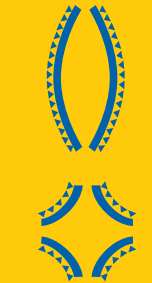

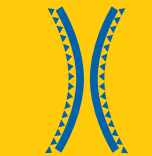

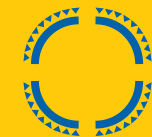

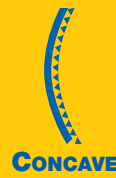

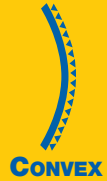

This time-honored high-impact medium, with the newly-added dimension of non-linear faces, commands viewers' attention, and provides extraordinarily powerful presentations!

*curved-face prismatic displays

You may choose from any of these dramatic configurations . . .

On open-ended shapes, prismatic faces may be specified for either or both sides.

Static graphics may be applied to sides without prismatic faces.

Available with prismatic faces on either or both surfaces; If one surface only, static graphics may be applied to the other surface.

. . . or create your own configuration or arrangement!
